INTUODATA, SMART AI DATA ENGINE FOR ADVANCED DATA MANAGEMENT

IntuoData is the world's only next-generation **Smart AI Data Engine**. Developed by Hermes Digital Consulting, it is built on a JavaScript programming engine and designed through the scientific application of psychology. It **combines AI with a Cognitive Psychology Model** to enable the custom creation of sophisticated applications for complex data management.

IntuoData interprets data based on its nature, eliminating the need for coding. While traditional applications structure data according to its source, IntuoData's innovative approach enables more efficient data management, significantly reducing implementation and management costs. This leads to a substantial improvement in ROI.

IntuoData is more than just an **AI assistant**, **Data Management Tool**, or **No-Code Generator**; it is an innovative **AI avatar** and **AI-powered Application Generator** featuring **Custom Input Fields**, a **Decision Assistant**, a **Graphics Engine**, a **Meta-Platform**, a **Premier Page**, and **24/7 Support**.

That is why IntuoData is unique in the market

CERTIFICATIONS

SOC 2 TYPE 1 – 2 (System and organization Controls)

HDC has an independent report evaluating the effectiveness of our company's security controls, covering security, availability, processing integrity, confidentiality, and privacy.

IA MODEL

AI ACT

HDC has its own AI model, developed in accordance with European Union regulations and aligned with the principles of the European AI Act.

PROGRAMMING

ISP (Industry Standard Programming)

HDC has developed IntuoData using English-language programming languages, source code, documentation, and technical standards, ensuring international compatibility, maintainability, and efficient outsourcing services.

ENCRYPTION

AES

Encryption at rest (Advanced Encryption Standard)

HDC has equipped IntuoData with AES encryption for data at rest to ensure the confidentiality of the Client's information.

SAFETY

SAST (Static Application Security) DAST (Dynamic Application Security) SCA (Software Component Analysis)

HDC has enhanced IntuoData with SAST, DAST, and SCA analysis to detect and remediate vulnerabilities in the software and its open-source components before they can be exploited.

RECOVERY

DRP (Disaster Recovering Plan)

HDC has implemented a DRP for IntuoData, ensuring service recovery and business continuity.

USER MANAGEMENT

SSO (Single Sign-On)

OAuth 2

SAML (Security Assertion Markup Language)

MFA (Multifactor Authentication)

HDC has incorporated a user management system into IntuoData featuring SSO, OAuth 2.0, SAML, and MFA, providing security, access control, and integration with enterprise identity providers.

CONNECTIVITY

Enterprise Connectivity

HDC has equipped IntuoData with native connectivity to leading CRM (Customer Relationship Management) and ERP (Enterprise Resource Planning) systems—such as Microsoft Dynamics, Oracle, Salesforce, and SAP HANA—ensuring secure and scalable integration.

WARRANTIES

BCP (Business Continuity Plan)

HDC offers a Business Continuity Plan (BCP) that guarantees the continuity and availability of IntuoData services for the client in the event of incidents or crises affecting our company.

MAINTENANCE SERVICE

The HDC Maintenance service combines AI and specialized technicians, offering Bronze, Silver, and Gold plans with coverage up to 24/7, year-round.

Performance of INTUODATA is always guaranteed

8 hours/5 days a week
Work schedule

16 hours/5 days a week

24 hours a day, 7 days a week,
365 days a year

DOES YOUR ORGANIZATION NEED INTUODATA?

New Data Management Applications

Modernize and unify existing IT systems or those with legacy architectures—which require a new front-end and substantially improved data management—without replacing the infrastructure currently in use.

INTUODATA integrates easily with applications such as CRM, Oracle, or SAP, delivering solutions that are more effective and cost-competitive.

INTUODATA is applicable across all sectors and organizational areas: Executive Management, Finance, HR, Legal, R&D, Engineering, Marketing, Sales, Logistics, and more.

Organizations using INTUODATA express total satisfaction

HERMES DIGITAL CONSULTING GROUP is a leader in international strategic and commercial consulting, digital marketing and communication, and innovative, advanced-technology "All-in-One" AI products.
